[Joint Production Technology](#) (JPT) announced today that it has received our updated certificate to ISO-9001:2008 registration.

JPT was originally registered to ISO-9001:1994 standard and subsequently upgraded to ISO-9001:2000 and currently to the latest ISO standard of ISO-9001:2008.

By applying for and achieving ISO-9001:2008 Registration, we let our customers and employees know that we aspire to an unsurpassed level of quality excellence.

We see this achievement as "one of the most significant milestones in our company's history, and a springboard toward increased sales and market position."
